

Educational Development Plan (EDP) Parent Access Information

Dear Parent,

The Career Cruising Parent Portal allows you to view and comment on the work your child has done in his or her EDP, keep track of his or her progress, receive messages from counselors and teachers at his or her school, and explore Career Cruising.

If you have not already created a parent account, you will need to obtain an access code that you can use to register and view your child's EDP. This access code can be obtained through the counseling office.

Once you have obtained an access code for your child, please follow the directions below.

Go to <http://www.careercruising.com/Parent/>

To create a Parent Portal account, click on the "Register Now" link.

You can link your account to as many students as needed. If you have an existing Career Cruising Parent Portal Account, please login and click on the "Add a Child" link in the column on the left side of the page and enter your activation code. You will need an activation code for each child.
