## STUDENT HEALTH

The past couple of weeks here at school we have seen many cases of illness in our students.

In particular, a virus that has been causing high fever, headache, and cough, strep throat, and a stomach virus causing vomiting and/or diarrhea. Just a few reminders for parents from the school office about what to do when your child does not feel well...

- ❖ In order to protect the health of all children, a child who does not feel well should be kept home.
- ❖ **If your child has a fever they should not come back to school until they have been fever free without the use of fever reduction medication for 24 hours.**
- ❖ "Heavy cough" and hacking cough, home in bed even though no fever. Sore throat, but no other symptoms, send student to school, but check the throat for spots and check for a fever. If either is present, keep the child home.
- ❖ Vomiting or diarrhea, keep the child home.

If your child is staying home from school **PLEASE call the school office attendance line**, 231-755-2201, option#1, before 9 am to report the absence. You may also send an email to [agawron@muskegoncatholic.org](mailto:agawron@muskegoncatholic.org). In your message please be specific as to the symptoms of your child's illness. This is important information for weekly reports sent to the Health Department.

If a student should need medication, whether prescription or non-prescription, upon their return to school after an illness, a Student Medication Authorization Form must be completed and signed by the parent. This form is available in the school office or on the school website.

A child should be completely well before returning to school after an illness. The ability to participate in all school activities, including recess, is a good indicator if a student is ready to return.
